Usage: The substrate is intended for growing plants that prefer a more acidic environment (pH from 3.5-4.5) or for soil improvement. The substrate is made according to a special recipe from ecologically clean peat, enriched with crushed tree bark, complex fertilizers with microelements, and a water absorption enhancer. The substrate fraction is coarse.

Safety: The substrate does not contain hazardous substances, microorganisms and fungi that could harm plants, animals, or humans; there are no GMOs, hormones, pesticides, salmonella, brucella, nematodes; the substrate is not contaminated with plastic or foreign substances.

Storage conditions and shelf life: Store in a dry, ventilated place. Protect from direct sunlight. Best consumed within 12 months from the date of manufacture.
